

### Sage City Live . . . your online community—LIVE at Sage Summit!

Join top contributors from the Sage City online community at Sage Summit 2015 for informal discussions on trending topics. Check the Sage City Live schedule posted on the welcome monitors and drop in to participate in the discussion that's most important to you—no need to register! Choose from a wide variety of roundtable topics, including great conversations such as these.

#### Business roundtables

- Understanding error messages . . . what Sage tech support, your partner, and colleagues in Sage City need to know before they can help you
- Strategies for planning (and surviving) a migration
- Using Excel to prepare data for importing . . . what are your best tips for using Excel to reformat data when moving information between systems?
- What is/will be the impact of the cloud on your business
- Interest on lawyers' trust accounting issues—how to keep you or your customers from losing their bar license by handling the IOLTA account correctly
- Canadian charities and the CRA—working with the charities directorate
- Keeping your books clean and ready for your CPA and auditor (and reducing their fees)
- Best practices for the distribution industry—how are you monitoring customer compliance, leveraging operating lines, and choosing your e-commerce platforms? Open discussion on business issues from technology to scalability for organizations in a distribution or franchise-management role.
- Increasing user adoption . . . dealing with employee resistance. Has your organization's productivity or effectiveness been challenged by employees who are resistant to change?
